

NERCT 2015 welcomes Participants to its Training Program

On December 3 and 4, the organisers of NERCT 2015 will welcome participants to its two day training program on security and counter-terrorism.

Supported by Puzzles Group and chaired by MOSECON Africa's managing director Uzoma I. Kingsley, the training will focus on intelligence gathering and analysis, terrorism and counter-terrorism tactics, risk management and professionalism in the security industry.

Aiming to contribute practically to Nigeria's security, this is the first of a series of training events organised as part of the NERCT workshops and offers the opportunity for experienced security professionals to obtain high quality training.

Should you or your company be interested in taking part in the NERCT Training Program, please contact Mr Uzoma Kingsley at info@nerct.com for more details.
