

South African Partner for NERCT 2014

The organizers of NERCT 2014 are proud to announce the signing of South African Technical Textile Cluster, a Durban-based company that specializes in textiles for the security industry.

This is the South African company's first time at NERCT and we are extremely happy that they chose our event to demonstrate the quality of their products.

Should you also be interested in becoming a partner or exhibitor at NERCT 2014, please visit our "Sponsors and Partners" page for more information.
